Internal Cooking Temperatures	
135°F	Plant foods for hot holding
145°F for 15 seconds	Unpasteurized eggs
	Fish, except as listed below
	Meat, except as listed below
	Pork, except as listed below
	Commercially raised game animals, rabbits
155°F for 15 seconds	Ground or comminuted meats or fish
	Injected or mechanically tenderized meats
	Ratites (ostrich, rhea, emu)
	Pooled eggs when allowed
165°F for 15 seconds	Poultry
	Stuffed foods including: fish, meat, pasta, poultry
	Stuffing containing fish, meat, or poultry
	Wild game animals
WAC 246-215-03400(2)	Whole meat roasts; ham
Holding Temperatures	41°F or less; 135°F or greater

Cooling
Cool foods in shallow pans with a food depth of 2 inches or less, uncovered, refrigerated at 41°F, and protected from contamination.
OR
Cool foods from 135°F to 70°F within 2 hours
<i>and</i>
Cool foods to 41°F within a total of 6 hours or less.
Use the following cooling options: - Rapid cooling equipment - Ice bath - Other methods that meet the time temperature criteria

ROP Reduced Oxygen Packaging

Handwashing and Preventing Bare Hand Contact
Handwashing must take at least 20 seconds, and include a 10-15 second scrub, a thorough rinse, and a complete drying of the hands.
Bare hand contact with ready-to-eat foods is prohibited. Single-use gloves, tongs, utensils, or other approved methods must be used when handling ready-to-eat foods.

Food Safety Training Requirement
All food workers must have a valid Washington FWC and copies must be available upon request.
New employees without valid FWCs must be given food safety training before beginning food handling duties. The training must be documented and kept onsite. Food workers must have a FWC within 14 calendar days of hire.
Initial FWCs are valid for 2 years and renewal cards are valid for 3 years. The FWC must be renewed within 60 days before the card expires.

Restrictions/Exclusion of Ill Food Workers
Healthy food workers are important factors in foodborne illness prevention. Food workers must inform the PIC if they have: - Symptoms including diarrhea, vomiting, or jaundice. - A diagnosed illness from <i>Salmonella</i> Typhi, <i>Shigella</i>, Shiga toxin-producing <i>E. coli</i>, or hepatitis A. - A diagnosed illness from Norovirus or any <i>Salmonella</i>, if serving a highly susceptible population. - Infected, uncovered wounds. - Discharges from the eyes, nose, or mouth (persistent sneezing, coughing, or runny nose). - Sore throat with fever.
The PIC must restrict or exclude food workers with these conditions.

Notification
The PIC must notify the Regulatory Authority if a food worker has jaundice or a diagnosed illness that can be transmitted through food.

Potentially Hazardous Foods
Potentially Hazardous Foods require time and temperature control for safety. PHFs include: Animal Products - Meat, fish, poultry, seafood, eggs - Dairy products Cooked Starches - Cooked rice, beans, pasta, potatoes Fruits and Vegetables - Cooked vegetables - Tofu - Sprouts (such as alfalfa or bean sprouts) - Cut melons - Cut leafy greens* - Cut tomatoes* <i>*New PHF in 2013</i>

Imminent Health Hazards
A food establishment must immediately stop operations and notify the Regulatory Authority if an imminent health hazard may exist due to: - Foodborne illness outbreak - Fire - Flood - Loss of electricity - Lack of hot water or loss of water service - Sewage backup - Misuse of toxic or poisonous materials - Any circumstance that may endanger public health

OBSERVATIONS AND CORRECTIVE ACTIONS						
Violations cited in this report must be corrected within the time frames specified.						
Violation 21-10 Proper cold holding, >45 10 pts						
Observations: Hot dogs being cold held at 51°						
Correction needed: Ensure all cold held PHFs are held at 41° or less. Hot dogs (the only PHF in the refrigeration unit) were thrown out. Facility should monitor temps in the unit to determine if the unit needs servicing or replacing. Do not use refrigeration unit for PHFs until unit is verified to be working properly. It appears that the door may have been left open and the reason for problem
