OBSERVATIONS AND CORRECTIVE ACTIONS

Item Number	Violations cited in this report must be corrected within the time frames specified.	Points
	Compliance check for hot case temperatures based on previous inspection determination of low hot holding temps	

Comments

Facility is not cooking any of the items (enchiladas, chips, fried chicken or jalos) until hot case is repaired/replaced. These are the items that were located in the parts of the hot case that were not holding temps in prior inspection. This was a self imposed decision based on last inspection. Facility has scheduled an appointment for the hot case to be serviced. If the case is not repairable, they decided to replace.
